**Public Works Department  
541-938-8270, 8272 or 8274**

**Reminder: Burn barrels are prohibited within the city limits at all times.**

## SAFE DISPOSAL OF FIREWORKS!

**1**

### SOAK THE FIREWORKS (COMPLETELY)

Submerge fireworks in a bucket of water for at least 15 minutes. They need to soak until they are fully saturated, which can take anywhere from 15 minutes (for small fireworks) to overnight (for large fireworks).

**2**

### WRAP THEM UP

Double wrap your soaked fireworks in either plastic wrap or two plastic bags. The key here is making sure your fireworks don't dry out, as they need to remain saturated to safely dispose of them.

**3**

### DISPOSAL

Once you have double wrapped your completely soaked fireworks in plastic, they are safe to dispose of. Since fireworks are not considered hazardous waste, you can place them in your household trash.

**AVOID PAYING FOR A DAMAGED CAN!**
