

FEBRUARY 2025

RECYCLING

Do your part! Reduce waste, reuse items or donate gently used items and the preparation and sorting of accepted recyclable items at our depots.

re-

re-

1. a prefix, occurring originally in loanwords from Latin, used with the meaning "again" or "again and again" to indicate repetition, or with the meaning "backward" to indicate withdrawal or backward motion: regenerate; refurbish; retype; retrace; revert.

Re-think your role in the waste cycle!

Reduce, reuse and recycle!

- 1. REDUCE** Choose items using less packaging as well as items that are packaged using recyclable materials reducing the amount of waste.
- 2. REUSE** You have an item that is broken such as a shovel handle. Rather than buying a new shovel, replace the handle and reuse the shovel rather than throwing the entire item away and buying new. Or maybe you are upgrading your lawn mower or bicycle. Donate your old one that is still in operating order and may just need a some minor repairs. Someone else may be blessed with your donated older item as their new treasured item.
- 3. RECYCLE** After you have reduced waste and tried to donate or reuse items the final option is to recycle as much as you properly can. Some items are not recyclable as is, but with a little effort you can find that parts are recyclable saving that much waste from being disposed of in the landfill.

If you are not able to utilize the 3 RE's steps: reduce, reuse and recycle process then sometimes it is unfortunately REFUSE. You can refocus next time you seek an item on doing things differently to better conserve our resources and save unnecessary items from going to the landfill, which essentially costs you three times – initial purchase, landfill costs and the cost to replace with new.

Please contact us with questions, suggestions and ideas. We are here to help!

Please only recycle items that are recyclable. Contamination and non-acceptable items end up costing you more! Why pay to “recycle” them and then for them to be collected a second time to be thrown away? Save yourself time and money and do it right the first time!

Yes! Please recycle!

Greeting Cards – paper only, no glitter, or plastic

Wrapping Paper – no glitter, non-metallic
Gift bags (paper)
Cardboard boxes
Tissue Paper

Sorry, these are not recyclable.

Greeting cards – animated, with glitter, plastic or embellishments

JANUARY 26	New Year’s Day	Thursday, January 1 st	Friday, January 2 nd	Thursday, January 1 st

Do you have old items you no longer need or are replacing yet the old ones may have some life left in them for reuse?

REUSE – Donate them if they still work. Sometimes people can benefit from your old appliance by reusing parts off of them to repair others that would otherwise not need replaced, yet just repaired. This is true for most items. If you can’t use it check with our many area donation sites and thrift or second hand stores. You would be amazed what skills some folks have to repurpose or repair items that some would prefer to trash and start all over again with new. While you may not want it, it may be of some value for someone else.

RECYCLE – If it is something we accept as outlined above bring it during our normal operating hours to one of our depots. To expedite your experience at the depot it helps to prepare and sort your items before you arrive. Please sort them as outlined above so you can dispose of each category in the marked bin and be on your way to the next event of your day!
Can’t haul it? Call us! We can help provide you with other recycling options.
